

Leeds to Lapland

Tracking your distance

There are a couple of easy ways to track your distance and share your progress with your supporters:

1. Use the Leeds to Lapland tracker

Use our Leeds to Lapland tracker to record your activities and distance manually as you go.

2. Track your distance through JustGiving

You can also record your distance directly on your JustGiving fundraising page. There are two ways to do this:

- **Connect to Strava:** Log in to your JustGiving account, go to your fundraising page and scroll down to 'Connect Strava'. Follow the steps to link your Strava account. Once connected, your activities will automatically be shared on your fundraising page.
- **Log your distance manually:** Scroll down your JustGiving fundraising page and select 'Log fitness'. Add your activity and distance details manually. This is a great option if you're using another fitness app, treadmill, exercise bike or gym equipment.
